

WEST ASHLEY CONSULTING

BUSINESS SERVICE CAPABILITIES

ADHOC BUSINESS SERVICES

West Ashley Consulting provides a solution that is tailored specifically for small business. Our adhoc business services allows small companies to have access to business professionals for a subscription fee, either on a monthly or annual basis. We provide the critical support that you need to enhance your business by ensuring that you have the guidance that you need for your daily operations and/or projects and programs. Our skilled professionals can supplement, augment or provide needed expertise in areas of program/project management, change management, strategic planning, management training and development and many other areas of organizational support.

Annual Plan **Fee: contact us for more information**

This cost effective plan provides organizations with continuous support and ready access to knowledgeable business professionals to provide guidance as a partner to augment and enhance the organization's strategic goals and objectives. At a discounted rate, companies pay an annual fee to have access to business professionals for support the organization with specific business targeted areas.

Monthly Plan **Fee: contact us for more information**

For businesses that need limited support and are more project related, a monthly plan may be more appropriate. This plan, allows for organizations to have the flexibility to receive multiple services on a month to month plan and as needs change allowing for limited investment of resources.

MANAGEMENT TRAINING & DEVELOPMENT

West Ashley Consulting provides management training and development to organizations as both individualized training options for managers and group training sessions. We partner with our clients to determine which training methods would provide the greatest benefit for all parties involved. Effective management training is essential for employee engagement and ensures that organizations have a healthy working environment.

Fee: contact us for more information

LEGAL AUDITS

West Ashley Consulting provides legal audits for its clients, a compliance audit and a continuous improvement audit. Audits are designed for our clients based on their need. The results of the audit are provided to your organization as recommendation for improvements. Audits should be conducted to ensure compliance and governance requirements are being met; business and personnel management objectives are being achieved; human resource management risks are identified, assessed, and addressed; and your organization's human capital adds value.

Fee: contact us for more information
